VISION

The integral development of the individual into a whole person to fulfill her/his role in life in her/his twin capacities as a child of God and a faithful citizen of the country to build a just society.

MISSION

The spiritual, moral, intellectual and physical energies of students are being mobilized which empowers the child to live her/his life, facing the challenging future successfully.

Manager's Message

"Intelligence plus character – that is the goal of true education."

–Martin Luther King Jr.

Dear Parents and Students,

I would like to share with you the annual e-Magazine, which showcases the hard work and dedication of our students throughout the academic year. As Robert Collie said, "Success is the sum of small efforts, repeated day in and day out," and I am proud to see our students grow and excel in their unique talents and interests.

Our teachers have been committed in creating a positive and inclusive learning environment by exploring innovative teaching strategies. We believe in recognizing the individual needs of each student and providing them with a personalized approach to education.

At our school, we value a comprehensive education that extends beyond the classroom. We encourage our students to participate in a wide range of extracurricular activities, such as clubs and sports teams, to boost their confidence and enable them to explore new areas of growth.

Moreover, we strongly believe in instilling strong values and character traits in our students, such as respect, responsibility and compassion. We encourage them to become positive contributors to our school community and the world around.

I extend my appreciation to the editorial board and all the teachers for their hard work in bringing this e-edition of the magazine to fruition. May you all have a graceful academic year ahead.

Principal's Message

***The whole purpose of education is
to turn mirrors into windows.***

-Sydney J Harris

Today we live in a world that is very different from the one we were educated in. We are going through prodigious changes and developments every day. Education today is a blend of academic excellence and creativity. It provides opportunities to enhance the student's creativity, expression, and capacity for aesthetic expression. The world today is changing at such an accelerating rate. The latest revolution in the system of Indian education has come with the origin of the National Education Policy (NEP) 2020. Changes in the education policy are a major way to provide an enriching and challenging environment where each child is encouraged to grow to his/her fullest potential academically, emotionally, and socially in a supportive and culturally diverse environment.

While we are determined to provide seamless learning through the incorporation of the latest teaching approaches, we also ensure and encourage our students to grow as strong, reflective, and humble individuals with discerning minds, prepared to make a mark in all spheres of life.

Catering to the demands of the NEP, we are also revising and reviewing our teaching strategies at all levels. As our children are growing, let us acknowledge the changes which are challenging them. As a parent/guardian, you want the best for your child and we are proud to be working with you to ensure that they are given the right knowledge to face future challenges.

I appreciate and congratulate the tremendous effort and the unruffled patience of the members of the Editorial Board to showcase the creativity of fledging sheperdians.

I am confident that this year will be filled with many achievements, memorable experiences and personal growth. Let us embrace the challenges and opportunities that lie ahead and strive for excellence in everything we do.

Looking forward to working together towards this common goal,
With all my love, best wishes and blessings,

**Sr. Chitra

EDITORIAL

Knowledge is power. Information is liberation . Education is the premise of progress, in every society, in every family.

-Kofi Annan

Greetings to all!

Education is fundamental for achieving full human potential, developing an equitable and just society and promoting national development. The world is undergoing rapid changes in the knowledge landscape with various dramatic scientific and technological advances, such as the rise of machine learning and artificial intelligence is taking the world by storm.

In the post-pandemic world, skills are an important component of advanced educational programme. In the present times, 21st century skills inculcation is one of the primary goals of school education and Good Shepherd Convent Sr. Secondary school strives hard in fulfilling all the requirements for the holistic development of the students.

The school is happy to release the first volume of its E-magazine (Shepherd's voice). The editorial board had the herculean task of collecting, selecting and editing copious amounts of entries for the magazine, and keeping track of the myriads of events that dot the school calendar. With this our final word of gratitude goes out to our Principal Sr. Chitra, Vice Principal Sr. Hitha, the staff and ofcourse, the students whose contribution made this dream a reality.

In conclusion I thank the Almighty for all his unfailing blessings showered on us. Let us remain ever faithful to our motto "Life is to give".

God bless and a happy reading to all!!

SMILE

Smile is a mask that hides "Pain" inside and shows other that you are nice outside, it shows your happiness not your tears to others. You are broken inside but it looks nice outside, you're crying and it looks ok outside, smile is a mask that hides reality of hate, anger and pain inside us. It's just a smile more than a lie to your loved ones. It hides sadness not ends it.

MY LAST DAY AT SCHOOL....

Everyone loves school life and mostly the beautiful events which one experiences in a school. We develop a sense of emotional bond with the school. The school teaches us so many life lessons and values. But, there comes a day when we all need to part away from our school and our friends. It is difficult for anyone to leave the school one day and forever. Leaving my school was a moment of painful separation. I was very emotional. It felt like we had a really short journey together that had passed so fast. Everyone including the teachers were emotional and tears started rolling down the cheeks. The day was a mixture of sadness and happiness. I felt happy I was going to a new school, but I was sad because I was leaving my teachers and was parting from our dearest friends. The happiest and the most enjoyable journey of 10 years in school had come to an end. Although I left the school, it will have a great place in my heart. I will always be grateful to my school for all the guidance, values and happy moments it gave to me. I will miss my school..

Thank you GSCS....

POWER OF POSITIVE THINKING

Positive thinking is a mental and emotional attitude that focuses on the bright side of life and expects positive results. There is one thing which we do throughout the day. We take it even when we are asleep at night. To make our life meaningful one, we need to mind our thoughts forever. Thoughts are the foundation, the inspiration and the motivating power of our deeds.

We create our entire world by the way we think. Thoughts are the causes and conditions are the effects. There is not a single moment in our life when we are not doing it. In order to make our life successful one, we really need to master what to think and what not to think more than anything else.

It is a mental exploration. Many people do not even realise the kind of freedom, they need to mould their own emotions. If we realise how powerful our thoughts are then we would never think negatively. A person with positive thinking mentally anticipates happiness, health and success and believes that he or she can overcome any obstacle and difficulty.

DEPRESSION

Depression isn't always a crushing weight,
Or a hand chocking the throat,
I think it's important to remember that,
For some,
It is little more than
A slight morning fog,
Concealing just enough height
To spoil the joy,
Never a sadness severe enough
To shatter the spirit,
But one that saps slowly each day
In your heart.
Until life is a cheerless shadow of itself.
To these souls, be a wind,
A parting of curtains,
A reminder that just
Beyond those deep rolling clouds,
There is still light,
There always is!

PERFECTION

It isn't primary education
But also a little determination
It isn't mere addition or subtraction
But a complete transaction
It isn't just the challenging of
assumption
But shift from action to reaction.

It leads also distraction
But focusing should be the attraction
It might give you less hope and feelings
of dissatisfaction
But try creating interaction
And may be then passion
Will be called perfection.

YOUR BEST

If you always try your best
Then you will never
have to wonder
About what you could
have done
If you'd summoned all your thunder.

And if your best
was not as good as good
As you hoped it would be,
you still could say,
“I gave today
All that I had in me”.

A KIND WORD

A kind word spoken in faith
Always gives you joy!
It is the little things that encourage others
Your kind words,
Your gentle words,
Your patience, and
your meekness
That gives others peace
That gives them strength
to carry on!

For these are the fruits of the spirit
This is loving one another.
This is abiding in God and knowing that
He is abiding in you!
Then think before you speak.
See the good in others.

Look for the opportunity to say something nice.
A smile, a loving touch, a kind word...
Never fails!

MAGIC OF MUSIC

“MUSIC” one word with 5 letters but can express thousands of emotions. It has the power to heal. It's all about the feel. Where words end, music begins. Music brings back memories sometimes we find our self in the lyrics. A positive music brings positive vibes. Music has magical powers to cure anxiety, stress, depression etc. It's also known as universal language because the rhythms flow freely without any barriers as music has no boundaries. A direct connection to soul, relaxes our mind and many more. Music can cure your pain and help you to gain. Music is a vibe just feel it and you'll find peace in it.

MATHS A CHALLENGE

Try, try and try,
the more I try,
the more I cry.

I practice maths with my heart and soul,
Yet I am not able to achieve my goal.

I never get marks in maths,
inspite of my great endeavours
fate is never in my favour.

I really want to improve my maths,
Because I love this subject,
and for this I am trying my level best.

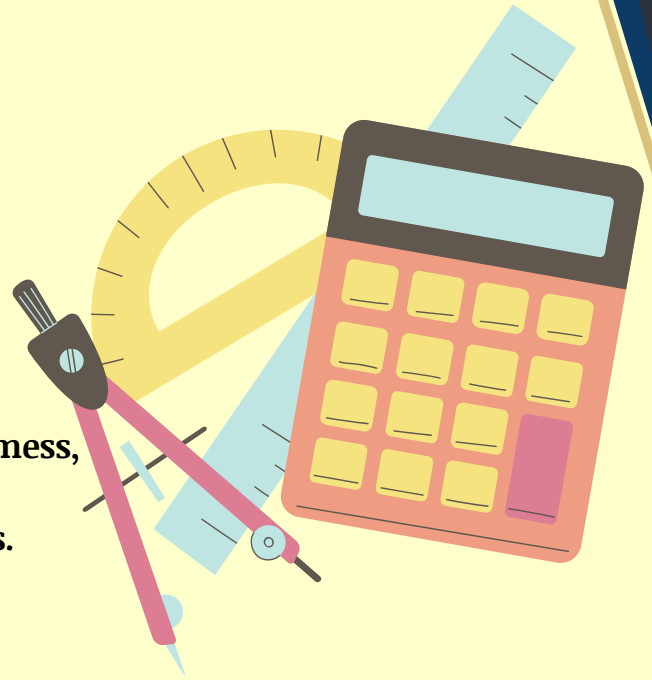

I am candid so I confess,
in mathematics examination I always create a mess,
all the answers I guess,
and ultimately the marks I get are quite less.

I believe that if I do ample practice,
I'll one day probably achieve my goal,
and I seriously have to improve,

Because in our lives maths plays a very significant role.

TIME

Hello.... I am time....

I am precious.... I am priceless....

But I am free....

I am same to the poor.... and the rich....

Some spend me and some use me....

Use me and see....

I will help you to reach your goals...
dreams and actions....

I can make you progress and prosper.

You can use me only once

You can't recycle me....

I fly.... never to return

Don't use me next to next,
And say next time because,
Next time you may miss me,

And see only my footprints called "Too late".

Positive Attitude

A positive attitude can help us to see the bright side of our life. It helps us to maintain better relations with others. A positive attitude can help us to achieve success in personal and professional life. It can help us to avoid worries and negative thinking. People with a positive attitude see the best even in difficult situations. A positive attitude let us relax and help to have concentration in our studies and physical activities. It gives an active and positive mind to deal with the daily affair of life.

When we develop a positive attitude we will start feeling better about ourself. A positive attitude can bring more happiness and more energy in our life. We are able to inspire and motivate ourself for the challenges of our life. We can receive more love and respect from others as well. Problems like depression, stress, pain, illness can be avoided with a positive attitude.

We should surround ourselves with positive people. People with positive attitude can create a positive environment for the society. Hence, by having a positive attitude we can live our lives happily and cheerfully.

DOGS 'OUR BEST FRIENDS'

Dogs are known to be man's best friend. Their loyalty will never cease to amaze you. Once you win their heart, they will never leave you. To the introverts who prefer spending their time alone, a dog's presence will be enough to keep their company. Despite being alone, they will make sure that you don't feel lonely. Dogs don't know to speak. A famous quote by Orhan Pamuk says

"Dogs do speak but only to those who listen."

They will protect you at all cost:

Human friends can protect you in some ways, such as defending you when someone spreads false rumors against you or save you during an emergency. But dogs will literally risk their lives for you — I'm not saying that humans won't, some will do, but once you gain a dog's loyalty, they will save you in a heartbeat.

They will protect you because they love you more than they love themselves

"A dog is the only creature on earth that loves you more than he loves himself." — Josh Billings.

WOMEN EMPOWERMENT

Women empowerment is very important for a country's overall development, growth and progress. Women empowerment can be achieved through various methods such as compulsory education for women, making them aware about their rights etc.

Women's empowerment helps the women to live their lives on their own terms and condition and take decision by themselves. Women empowerment was at slow rate in terms of progress in India as compared to other countries but in the last few years it has achieved significant growth and development. It also helps the women to get economic independence in terms of using their money, assets, resources and improve women's status in the society.

Women empowerment solves one of the biggest issues of the country that is Gender inequality as the working women is also given the same respect and status in the society as of men. Women empowerment gives women a chance to work which reduces the gender pay gap in the society that leads to the overall improvement in the poverty conditions.

FINANCIAL LITERACY FOR YOUNGSTERS

'Financial Literacy' is defined as the ability to "understand and use various financial skills". This includes budgeting, investing, credit management, and personal financial management. Financial literacy is, in other words, the capacity to manage finances.

Being financially literate is a skill that brings forth an assortment of benefits that can improve the standard of living for individuals through an increase in financial stability. Some merits of financial literacy are highlighted below:

- Ability to make better financial decision.
- Effective management of money and debt.
- Public and work related benefits.
- Savings and investing strategies.
- Provides awareness from frauds and scams.

For youngsters understanding and effectively using financial literacy is highly recommended and considered most valued for their life. They can acquire finance knowledge from the following sources:

- Finance subjects
- Short term courses on investing
- Research papers on basic investing
- Finance blogs, etc.

Financial literacy helps people in becoming independent and self-sufficient. It empowers you with basic knowledge of investment options, financial markets, capital budgeting, etc. It also adds up for economic development of a society . It leads to a stress-free life after all. Financial literacy is a key skill to be acquired in today's world to ensure an organized life.

"Unraveling Adolescence"

In the domain of teenagehood, where I reside,
A rollercoaster journey where emotions collide.
I'll share the struggles I face each day,
As a teenager navigating life's tumultuous way.
Peer pressure knocks incessantly at my door,
Urging conformity, tempting me to explore.
The need to fit in, to be part of the crowd,
Leaves me anxious, my individuality drowned.
The weight of expectations rests upon my chest,
From parents, teachers, a constant quest.
To excel in academics, to shape my future bright,
But the fear of failure haunts me day and night.
Relationships, a tangled web I try to untwine,
Craving acceptance, seeking real friendship's sign.
Yet in the maze of emotions, I always get lost,
Hurt and betrayal become an inevitable cost.
Navigating my identity, a puzzle to solve,
Discovering who I am, evolving as I evolve.
The pressure to find my purpose, to know my place,
Leaves me overwhelmed, with doubts I can't erase.
Technology's grip tightens with each passing hour,
The virtual world consuming, with its emerging power.
Comparison and doubts seep into my mind,
As I measure my worth by likes and comments I find.
The future always looms with large uncertainty,
Decisions to make, paths to choose wisely.
The weight of responsibilities, my dreams at stake,
Leaving me anxious, unsure of chaos I will make.
But amidst the chaos, hope flickers within,
Strength emerges, resilience begins to begin.
For within me lies a spirit, bold and strong,
Ready to face challenges, rights and wrongs.
I seek understanding, compassion, and trust,
And a listening ear, someone who won't judge and thrust.
Through empathy and support, I will find my way,
Sorting my problems, finding a brighter day.
So if you can,
Lend me your hand, offer me guidance and care,
Believe in my potential, see the dreams I dare.
Together or alone, I will weather the storms that arise,
And emerge stronger as I reach the skies.

Who are parents ?

Parents are the real form of that unseen God. Just like God understands all our things and needs without saying anything, in the same way mother also understands. They also give the best advice if you are in trouble because they selflessly love us. Sometimes by being our friend sometimes by being our teacher, sometimes by being our advisor, from time to time, they support us. If God has given us life, then mother and father have taught us to live our life in the right way. Whenever we get success in any exam, it is not ours alone but our parents also contribute in it. Children who respect their parents always achieve success in their lives. Oh God, give me the strength that I never ever give any pain and stress to my parents. Always care for your mother and father. Love them and always thank them.

DARKNESS HAS NO POWER

You're like the Sun,
And I'm the Moon
You illuminate me,
And because of you,
I illuminate the earth.
I have my own scars,
And my own phases
Some,
Where I just want to hide,
Hide in the shadows
And You tell me it's okay to disappear
When things don't go right,
But you illuminate me with hope
And at that moment,
Darkness has no power,
And
Even though we stay miles apart,
We share the same sky.
You give me the will to exist
The hope to shine.

काश मैं उस जैसा बन पाता,
जो मेरा शिक्षक कहलाता।

नारी तेरे रूप अनेक

दीनों, अपाहिजों, अनाथों लाचारों की भरोसा,
यह थीं नोबेल पुरस्कार विजेता प्यारी मदर टेरेसा।
संयुक्त राष्ट्र में राजदूत बनी विजय लक्ष्मी पंडित,
थी प्रज्ञा से भरी यह नारी अजर, अमर अमिट।

भारत रत्न एस. एस. सुब्बुलक्ष्मी,
थी साक्षात् देवी लक्ष्मी।

अशोक चक्र नीरजा भानोत,
थीं ज्ञान से ओत-प्रोत।

ज्ञानपीठ पुरस्कार विजेता आशापुणा देवी।
जिनकी छवि ऐसी थी, जैसे अन्नपूर्णा देवी।
बुकर पुरस्कार की बनी हकदार अरूंधति राय,
निडरता उन्हें हैं भाय।

इन देश के अनमोल सितारों को।
वे चमकते रहे गगन में हमेशा, खिलखिलाते रहे
बहारों को।

स्त्रीत्व का आवरण

धरती में जब अंकुर फुटा,
सबसे पहले तुम ही आई।
इस विरान भूमि धारा में,
जीवन की तरुणाई लाई।।

तेरे अनेक रूपों ने ही,
इस संसार को संवारा है।
मां, बहन, बेटी, सुता बनकर
सबके जीवन को पाला है।।

तू रानी तू महारानी,
तू ही जग की तारिणी है।
जो जीवन को समृद्ध बनाए,
तू ही वैभवशाली है।।
अपने स्वप्न की बलि देकर,
दूसरों को संवारा है।

अपना पेट काट-काट कर,
दूसरों के स्वप्नों को निखारा है।।
धरती और स्त्री सदा ही करते,
औरों पर उपकार सदा।।
जीवन को समृद्ध बनाते,
करते सबके साथ वफा।।
तू साहस तू त्याग की देवी,
तेरी महिमा निराली है।।
तू आगम-निगम बसानी,
तू ही वत्सला रानी है।।
